## Asafo Akwambo

### Basic Information

**About Asafo** The 2012 Akwambo Planning Committee is formed and tasked with the responsibility of planning and organising an event of its kind unique in its form to climax the celebration bringing on board all stake holders of the community especially the young people in the cities and those in the diaspora. It is mandated to actively involve the corporate societies and other enterprises that are interested in contributing a share in our quest to maintaining the historic culture of the indigenous people of Agona Asafo and the heroes as well as mothers of recompense. This year's festival promises to be the best of all times since will be an occasion where families will meet to settle disputes and friends will unite to honour good old days. Homage would also be paid to the chiefs and great men and women of Agona Asafo
